#### ROADS AND DRAINAGE

Surrey County Council has continued with its programme to reconstruct a number of worn out local roads. This programme will continue, despite financial cutbacks and each year more roads will be done.

In addition, other roads have been surface dressed to prolong their life, and we continue the never ending task of filling potholes. Last year we filled in 60,000 potholes across Surrey

We have also been systematically working on the most serious road drainage problems and we have been able to fix some of the issues and we will continue to work on others needing to be resolved.

County Cllr Richard Walsh pointing out the drain on Manor Farm Avenue that was flooding and has now been fixed.

Ash Road Shepperton Green resurfaced

The Broadway  
Laleham  
resurfaced

We have continued to support voluntary organisations in Shepperton and Laleham. County Councillor Richard Walsh has used some of his Councillors grant money recently to help with the rebuilding of the flower bed wall at the war memorial end of the High Street.
